## Language Classes in the Primary School (PYP)

We're excited to inform you about the literacy program we are implementing in our PYP classrooms, The Daily 5. This program is designed to enhance your child's literacy skills for both Bahasa and English by allowing daily practice in literacy. The Daily 5 includes targeted mini lessons alongside time for independent application of skills. Students are able to take an active role in their literacy journey as they engage in the daily practices.

Here are some of the daily activities they practice at school:

**Read to Self:** Your child is becoming an independent reader. They are working on stamina and comprehension skills as they read books that match their reading level. Encourage them to discuss their reading with you at home and ask open-ended questions about the stories.

**Work on Writing:** Your child is developing their writing skills. They engage in various writing activities, such as journals, stories, and response pieces. Take time to celebrate their writing accomplishments and ask them to share their creations with you.

**Read to Someone:** In this social aspect of the program, your child is paired with a partner to practice reading aloud. This helps build fluency and comprehension. You can support this by reading together at home or encouraging them to read to a sibling or even a stuffed animal!

**Word Work:** Your child is expanding their vocabulary and phonics skills through word work activities. You can incorporate word games into your family time, like crossword puzzles, word searches, or Scrabble.

**Listen to Reading:** Through audiobooks and digital resources, your child is enhancing their listening skills and comprehension. Consider listening to audiobooks during car rides or quiet time at home, and discuss the stories

## Language Classes in the Primary School (PYP)

Kami dengan senang hati memberitahu Anda tentang program literasi yang kami terapkan di kelas-kelas PYP kami, The Daily 5. Program ini dirancang untuk meningkatkan keterampilan literasi anak Anda baik dalam Bahasa maupun Inggris dengan memberikan latihan literasi setiap hari. The Daily 5 mencakup pelajaran mini yang ditargetkan bersama waktu untuk penerapan mandiri keterampilan. Siswa dapat mengambil peran aktif dalam perjalanan literasi mereka saat mereka terlibat dalam praktik harian.

Berikut adalah beberapa kegiatan harian yang mereka praktikkan di sekolah:

- **Read to Self:** Anak Anda sedang menjadi pembaca mandiri. Mereka sedang bekerja pada daya tahan dan keterampilan pemahaman saat mereka membaca buku yang sesuai dengan tingkat bacaan mereka. Dorong mereka untuk membahas bacaan mereka dengan Anda di rumah dan ajukan pertanyaan terbuka tentang ceritanya.
- **Work on Writing:** Anak Anda sedang mengembangkan keterampilan menulis mereka. Mereka terlibat dalam berbagai kegiatan menulis, seperti jurnal, cerita, dan tulisan tanggapan. Luangkan waktu untuk merayakan pencapaian menulis mereka dan minta mereka untuk berbagi kreasi mereka dengan Anda.
- **Read to Someone:** Dalam aspek sosial program ini, anak Anda dipasangkan dengan seorang mitra untuk berlatih membaca dengan keras. Ini membantu membangun kelancaran dan pemahaman. Anda dapat mendukung ini dengan membaca bersama di rumah atau mendorong mereka untuk membaca untuk saudara atau bahkan boneka!
- **Word Work:** Anak Anda sedang memperluas kosakata dan keterampilan fonetik melalui kegiatan pengolahan kata. Anda dapat menggabungkan permainan kata ke dalam waktu keluarga, seperti teka-teki silang, pencarian kata, atau Scrabble.
- **Listen to Reading:** Melalui audiobook dan sumber daya digital, anak Anda meningkatkan keterampilan mendengar dan pemahaman mereka. Pertimbangkan untuk mendengarkan audiobook selama perjalanan
